We Speak Image

Massimo riconoscimento alla vostra creatività

Lavoro di squadra per risultati migliori

Volete stampe della migliore qualità all'insegna della massima affidabilità? Allora utilizzate esclusivamente gli inchiostri e i supporti di stampa Canon per operare al meglio con le stampanti per grandi formati.

Hardware, inchiostri e supporti di stampa pensati per ottenere un risultato cromaticamente perfetto.

Grandi vantaggi con Canon

L'immagine è molto importante per noi. Riscuotere la stima della clientela è stata la forza trainante della nostra attività da quando abbiamo iniziato a produrre fotocamere nei lontani anni '30.

Le attuali soluzioni di stampa per grandi formati Canon sono il risultato di un'approfondita ricerca e sviluppo a livello di hardware, software e consumabili.
Un viaggio iniziato oltre 30 anni fa, quando la tecnologia di stampa a getto di inchiostro fu inventata da un ingegnere Canon attorno al 1970.

Per poter contare su prestazioni superiori, sono necessari prodotti che si sono evoluti nel corso di questo processo, prodotti progettati per ottenere risultati cromaticamente perfetti, per questo Canon ha creato una linea completa di consumabili da utilizzare sui prodotti grande formato.

Inchiostri e supporti di stampa in grado di garantire precisione e uniformità, riprodurre ampie gamme cromatiche, ridurre al minimo la bronzatura e offrire risultati straordinariamente affidabili se utilizzati con le stampanti per grandi formati Canon.

Inchiostri brillanti

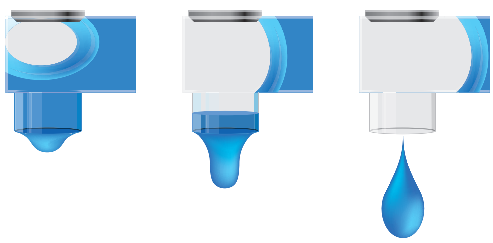

Gli inchiostri LUCIA sono inchiostri a base di pigmento sviluppati da Canon per la nostra linea di stampanti per grandi formati imagePROGRAF specifiche per le arti grafiche, e utilizzati nell'ambito dei mercati fotografico, delle belle arti, del proofing e della stampa professionale. Gli inchiostri LUCIA vantano un'ampia gamma cromatica e sono in grado di riprodurre immagini caratterizzate da delicati passaggi cromatici, minore granularità e meno inclini al metamerismo. Gli inchiostri LUCIA assicurano inoltre fino a 120 anni di resistenza alla luce.

L'innovativa tecnologia Canon a 5 inchiostri a base di colorante/pigmento, impiegata nelle nostre linee di stampanti imagePROGRAF per i mercati CAD/GIS, è stata appositamente sviluppata per la stampa di documenti commerciali ricchi di dettagli e per le applicazioni ingegneristiche. L'esclusiva formulazione di questi inchiostri ne migliora l'aderenza ai supporti di stampa, riducendo al minimo le "sbavature" dei colori. Il risultato vede testo più leggibile, curve meno discontinue e linee sottili più nitide anche su carte tecniche non patinate. Anche la resistenza ai graffi e agli evidenziatori risulta incrementata, prolungando la durata delle stampe rispetto a quelle eseguite con i tradizionali inchiostri a base di colorante.

Tecnologia FINE

Tutti i nostri inchiostri sono formulati per operare congiuntamente con la tecnologia Canon FINE, incorporata nelle testine di stampa. La tecnologia FINE elimina il problema del posizionamento irregolare dei colori causato dalle sempre più ridotte dimensioni delle goccioline di inchiostro. Bolle di inchiostro si formano sulla sommità degli ugelli allo scopo di separare e proiettare l'inchiostro. Un riscaldatore garantisce poi l'uniformità delle dimensioni delle goccioline di inchiostro durante la proiezione, assicurando una resa costante e colori luminosi stampa dopo stampa.

Nella tecnologia Canon FINE, la separazione e l'espulsione dell'inchiostro è determinata dalle stesse bolle di inchiostro che si formano sulla sommità degli ugelli.

Colori perfetti per la vostra creatività

Con **l'ampia gamma di supporti** di stampa a disposizione, potrete realizzare stampe perfettamente in linea con le richieste della clientela.

La scelta migliore per stampe brillanti.

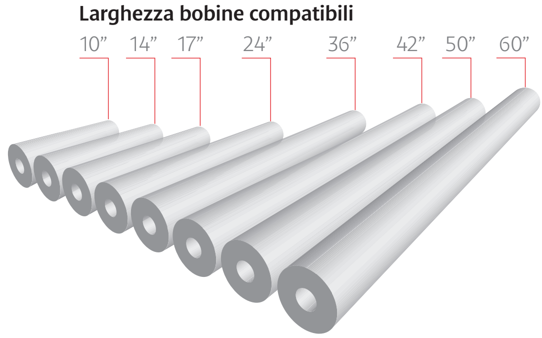

Ricca gamma di supporti di stampa Canon

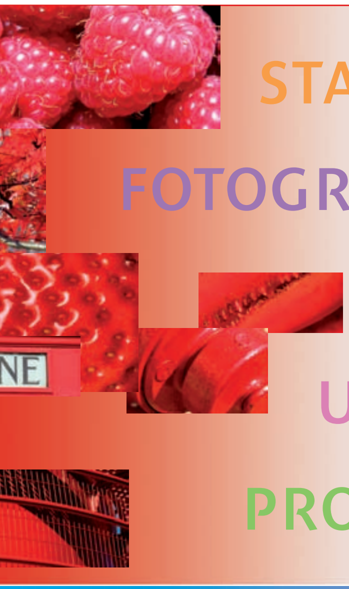

Una ricca gamma di supporti di stampa fa sì che tutti i vostri progetti possano trasformarsi in realtà, indipendentemente dall'applicazione utilizzata.
Oltre 40 diversi tipi di supporti di stampa sono disponibili in una grande varietà di grammature e spessori. Per quanto esigenti possano essere i vostri clienti, o per quanto creativi desideriate essere, con i supporti di stampa Canon i vostri obiettivi potranno essere facilmente raggiunti.

Rigidi collaudi

Per poter entrare a far parte del portafoglio di consumabili Canon LFP, ogni tipo di supporto di stampa Canon, in ogni formato disponibile, è sottoposto a una rigorosa procedura di controllo. Tutti i supporti devono infatti poter garantire stampe della migliore qualità, che permangano inalterate nel lungo periodo.
La qualità deve inoltre essere supportata da un'assenza totale di inconvenienti, e dall'ottemperanza a rigidi standard ambientali e di sicurezza. Solo se conformi ai suddetti criteri, i prodotti potranno entrare a far parte del portafoglio dei consumabili Canon per le stampanti di grande formato.

UTILIZZO GENERICO

PROOFING

Soluzioni per ogni applicazione

Qualsiasi progetto abbiate in mente, lo potrete realizzare con i supporti di stampa Canon. I supporti specializzati, per un utilizzo generico e le applicazioni di nicchia, fanno sì che ogni potenzialità creativa possa essere concretizzata.

Stampa professionale

Realizzate straordinarie insegne, poster e grafici da utilizzarsi in una vasta gamma di applicazioni. Potrete scegliere tra carte satinate e lucide, pellicole avvolgibili e per retroilluminazione, tessuti e molto altro ancora.

Fotografia & belle arti

Create veri capolavori artistici, ricchi di stupefacenti dettagli, su tela o su carta per belle arti della migliore qualità. Sbizzarritevi, stampando su larga scala foto di grandi dimensioni su una vasta gamma di supporti fotografici specializzati, disponibili in diverse grammature e finiture, tra cui le varietà perlate, lucide e satinate.

CAD / GIS

Date vita ai progetti più complessi utilizzando la carta opaca o i supporti non patinati, appositamente sviluppati per una resa eccezionale.

Proofing

E per prove colore di straordinaria precisione, sempre caratterizzate da un perfetto abbinamento dei colori, non può mancare un’ampia scelta di supporti dedicati.

Utilizzo generico

Se state utilizzando una stampante per grandi formati allo scopo di invidivuare strategie comunicative più efficaci per la vostra attività, i supporti di stampa a disposizione sono davvero innumerevoli. Date libero sfogo alla vostra fantasia, provando a stampare i poster sulle pellicole viniliche o retroilluminate.

- Vastissima scelta
- Bobine di varie larghezze
- Massima affidabilità
- Applicazioni specialistiche
- Rispetto dell’ambiente
